1 MS. SAVALA: I'm Gevene Savala, a representative from the Kaibab Paiute Tribe. And I support our
2 spokesperson, Richard Arnold on this recommendation that he has relayed to you. And I only have two
comments. I was interested in requesting funding for tribes for the transportation for emergency and
preparedness.

3 And the second one is material. I was concerned about material from foreign research reactors that may
come under DOE as the book -- as I read the book. This is regarding DOE regulations or is this waste
material? That's it.
